HENRY M. MERRILL, Treasurer.

We, the undersigned having examined the accounts of Henry M. Merrill, Treasurer of School Board, find them correctly cast and properly vouched.

BYRON RICHARDSON, }
C. E. LE BRUN, } Auditors.

Report of School Board.

In presenting this report for your consideration we wish to commend the work of our teachers in general. We think they labored for the welfare and best interests of our scholars, and although it is not possible to please everybody, yet, if the parents would endeavor to cooperate with the teacher more earnestly, much better results would be accomplished. No matter how zealously teachers may strive to forward their pupils, they cannot attain the desired result without the sympathy and help of the parents, and we earnestly request that you visit and personally inspect the schools. The attendance during the year has not been all that could be desired, and we wish to emphasize the fact that children from 8 to 14 years of age *must* be sent regularly to school, unless they are physically unable to attend, and if so, the School Board must be notified.

Chapter 93, section 14, of the School Laws of New Hampshire is as follows: "Every person having the custody and control of a child between the ages of 8 and 14 years residing in a school district in which a public school is annually taught, shall cause such child to attend the public school all the time such school is in session, unless the child shall be excused by the school board of the district because his physical or mental condition is such as to prevent his attendance at school for the period required or because he was instructed in the English language in a private school approved by the school board for a number of weeks equal to that in which the public school was in

session, in the common English branches, or, having those branches, in other more advanced studies. Any person who does not comply with the requirements of this section shall be fined \$10 for the first offense, and \$20 for every subsequent offense, for the use of the district."

There has been one case of prosecution for violating this very essential law of our State. The School Board endeavored to induce the party to comply with said law by moral suasion, but they failed, and as the only recourse was to prosecute personally or refer to the State officials, the State Superintendent of Schools was notified and the majesty of the law vindicated to the detriment of the offender. Let us labor earnestly for the upbuilding of our "Free Public Schools." We believe them to be one of the corner stones of our grand Republic. There is another State law we would call your attention to, and that is the requirement to study Physiology and Hygiene having special reference to the effects of alcoholic stimulants and of narcotics and tobacco upon the human system. Let us see that this law is enforced, feeling that there is a great responsibility resting upon us as to what the health and habits of the coming generation is to be.

During the year we had 26 weeks school and our money has been expended very economically.

Yours for the best interests of our schools.

Mrs. ILLILLA FELLOWS,) School Board
CYRILLE E. LEBRUN,) of
AZRO H. SCHOOLCRAFT,) Dorchester.
